D.O. No. 8-14/2011-FP (Vol. 3) pt

Dated 19th May, 2017

Dear

Bamboo has tremendous potential of contributing to growth of rural economy. However, bamboo cultivation and production has not been upto the desired level. One of the factors that may be inhibiting bamboo production is the insipid growth of bamboo based industries. Concerns have been raised in various quarters, regarding difficulties in getting license / NOC for units dependent on bamboo as a raw material.

With a view to encourage people to grow bamboo in their private holdings, I would request you to consider exempting units which are exclusively using bamboo as raw material from the purview of obtaining license / NOC from Forest Department.

With regards,

Yours sincerely,

(Siddhanta Das)

The Additional Chief Secretary/Principal Secretary (Forests), All States/UTs
